Subject: Microsoft Settlement

Dear sir/madam,

I would like to express my concern about MS/DOJ settlement.

I do not hate Microsoft, but I want to see good product will be able to go into the market and compete with Microsoft product. If the Microsoft should fail it should be because some other people created better product and Microsoft cannot do anything with its influence to crush it.

Microsoft said that their bundled app (browser, CD burner, instant messenger) are free, while actually the cost has been paid with the price of OS itself, regardless the customer wants it or not.

Sincerely,

Erwin.
